00:24:46 Patricia Herr: Kwe'! Love and Gratitude from Düsseldorf, Germany! 🌹 ✨ ✨

00:24:54 Judith Wouk: If you want everyone to see your words, note that you need to change the "To" line to "everyone".

00:24:55 Myke Johnson: Myke in Portland, Maine Wabanaki territory

00:25:00 Luciana Percovich: greetings from Luciana, Italy

00:26:00 Marie Long: Hi from Chicago metro area

00:38:09 Rev. Areeya Sharpe: Blessings aLLways from Sekhmet Temple Cactus Springs, Western Shoshone homelands, NV 🙏

00:41:38 Peggy Antrobus: Helena's analysis of the interlinked crises since the 1980s (Reagan-Thatcher era) is brilliant! 'The Enemy' is a system dominated by multinational corporations that have 'captured' our governments ('corporate capture of the state').

00:54:41 Patricia Herr: Thank you Helena! I love each and every word you said! 💕

00:58:09 Letecia Layson: If you have any questions, please enter them in the Q & A for either Helena or Pat. We look forward to them.

01:02:26 Joan Marler: Dear Helena, I am profoundly moved by your presentation especially because I have just returned from being in the Caucasus mountains of Georgia where I experienced exactly the way of life and interdependent consciousness of embedded kinship with all of life that you have so clearly expressed. I am extremely grateful for your presentation exactly at this moment for an affirmation of all that is arising within me. Bless you for your lifelong dedication to your exceedingly important work.

01:24:14 Peggy Antrobus: Thanks for Pat's insights and for asking us to think of a Transition from a world of corporate greed to a return to the love and solidarity with each other and the planet - return to the life that is wholesome and human.

01:24:47 Genevieve Vaughan: can we have a copy of the prayer please?

01:24:48 Hallie Iglehart Austen: Beautiful prayer! Would it be possible to receive those words in writing?

01:24:49 Patricia Herr: Wow - Pat ... Thank you for sharing your light with us! This is such an honor and gift to the world. I trust that you will stay standing und be protected, supported and blessed. 🙏🔥🌾🏞️ Where and how can we go on joining you in your prayers and actions?

01:25:06 Marie Long: thank you, Helena and Pat

01:25:24 Rev. Areeya Sharpe: Thank you, Helena and Pat. Question

in relation to being a child of/apart of the earth..., maternal gifting do you have suggestions, thoughts and/or observations of the most effective initial steps of reactivating, reengaging reciprocity between our physiology(human body) and our ecology(Mother Earth)

stepping out of globalization and reearthling localization 🙏

01:26:44 Luciana Percovich: thanks Pat I feel the same

01:27:01 Hallie Iglehart Austen: Yes, how to be an ally to the work Pat references?

01:29:51 marta benavides: mil mil gracias for the needed discernment/s- we do not need to innovate or invent alternatives to globalization- we live the alternatives- but the way has been the practices which still is in the way of life of those who have always lived to honor the way of the universe- abrazos- marta

01:32:17 Charlene Spretnak: Wow, both presentations were stunning. Looking forward to seeing the copy of Pat's prayer; I will think long about what she is urging us to do. Meanwhile, here's a recent article I wrote that links the climate crisis (specifically Community Emergency Preparedness) and the critical base of it: strengthening the social, cultural, and economic fabric of local towns: https://ecopsychology-journal.eu/v8/EJE%20v8_Spretnak.pdf

01:34:03 Marie Long: Isn't globalization the predictable result of centuries of the subordination of women, of land.

01:35:05 Marie Long: make that millenia

01:37:41 Patricia Herr: Thank you, Genevieve, for being so patient and persistent to share these important insights in the roots of the sickness of the current basic "economic" paradigm and in how to return to who we really are, over again, so that the energy can rise and spread ...

01:46:51 Hallie Iglehart Austen: Brilliant discussion, thank you Helena, Pat, Letecia, Gen and all. Lots of food for thought and spirit.

01:46:54 marta benavides: big presence today- our presence today and here - in sacredness- beauty and wholeness in oneness in eternity- in the power we R - marta

01:51:24 Luciana Percovich: Great Gen

01:53:02 Diane: <https://www.patmccabe.net>

01:54:19 Patricia Herr: "Profit"... a forced "gift" - given unvoluntarily by - and stolen from the ones with less systemic power - to and by those with a lot of abusively "justified" systemic power ...

01:55:14 marta benavides: we, no one needs to be empowered- because we R power- so vulnerability is a creation of the created system- first nature and peoples are vulnerated and they then are vulnerable, and then we have created solutions to "give" power in the wrong ways- and so on and so on- til we now have the developed and the developing nations - JUST TO CLARIFY NONE OF US CONSIDERED DEVELOPING NATIONS, nor the peoples in those nations are developing - nor least developed nations or peoples - we are classified by those who have usurped the power to name- think how this has happened- as weak and needy- we must be about correcting this confusion? lie... salud- marta

02:02:53 marta benavides: We must discern this land situation because

is deep and broad- we are captive in a yellow submarine when we COMFORM TO THIS WORL- the world that has been created in the way/s as Pat has spelled- BUT WE R POWER AND CREATORS, we can not but create all the time and all ways- got to exercise intentionally, in wisdom and grace the power we R- marta

02:09:24 Peggy Antrobus: 'Regenerate' another sales pitch for the corporations

02:10:11 Peggy Antrobus: Like the 'Blue' and 'Green' Economies

02:11:21 Luciana Percovich: thanks a lot Helena!

02:14:03 Diane: <https://www.localfutures.org>

02:14:23 marta benavides: Correct on Regenerate, blue and green and yellow and circle economies - like greenwashing - etc etc- globalization must be addressed for what it is, soc mvts from the Global South have always understood the game - and taken strong position on the fallacy and destructiveness of it- marta

02:14:30 William Pennell Rock: ALL LOVE AND PRAISE TO WOMEN STANDING SHINING!

02:15:43 angela miles: This is a continuing patriarachal colonial imperialist system through neo-liberal financialized class system.

02:16:14 Peggy Antrobus: You're right Marta B

02:18:04 Patricia Herr: Thank you Marta Your comments just make clear to me that believing in the current systemic power is part of being stuck in a weakening victimized self-perception of less power or no power at all... Time to leave this behind and starting to believe in ourselfes - in myself - being power

02:18:49 Marie Long: thanks Helena, Pat, Letetia, Gen, and crew

02:20:20 marta benavides: got to discern from this discernment the major issue now on "artificial intelligence" lots of confusing going on - "fusioing" !? marta

02:21:26 Darcia Narvaez: It is so wonderful to hear from Pat and Helena (and Gen), wise elders for our time. Their work has guided mine. This audience might interested to know that EvolvedNest.org Is launching a new short film (12 min) called Reimagining Humanity on June 20: register here: <https://reimagininghumanity.com/>

02:22:43 Peggy Antrobus: Pat: We do this so people can live. In the Caribbean some Guyanese women have come up with the statement: how do we organize to live?

02:22:48 Patricia Herr: Great News Darcia! I am so much looking foreward to it!

02:25:23 marta benavides: globalizatilon is centuries old? more than centuries- profit at is heart and slavery of all forms at its heart too- must leave- marta
